BORG Solutions

BORG Microscopy Solutions, LLC · dba Borg Solutions

CAPABILITIES STATEMENT

SERVICE-DISABLED VETERAN-OWNED SMALL BUSINESS

A veteran-owned, SBA-certified SDVOSB providing senior-level field service for advanced microscopy and optical instrumentation, and brokering scientific, technical, and industrial equipment against federal solicitations.

CORE COMPETENCIES

Microscopy & Precision Instrumentation Field Service

- Installation, commissioning, and on-site acceptance testing for confocal microscopy, optical tweezers, super-resolution imaging, and general biotech instrumentation
- Preventive maintenance, rapid-response repair, and calibration / optical alignment to restore manufacturer-spec performance
- Application and operator training for lab staff
- Fractional field engineering — ongoing contract-basis coverage for labs that don't need (or can't yet justify) a full-time senior field engineer

Government Contracting & Brokering

- Sourcing and competitively quoting scientific, laboratory, industrial, and electronic equipment against federal solicitations through a vetted supplier network
- Registered in SAM.gov; monitors SAM.gov and DIBBS for solicitations within core NAICS codes
- SDVOSB set-aside eligible; open to teaming and subcontracting with established primes

DIFFERENTIATORS

- SBA-certified Service-Disabled Veteran-Owned Small Business
- 25+ years of combined military and civilian helicopter aviation and senior-level biotech field engineering experience, including confocal microscopy and optical tweezers instrumentation supported across North America
- Rare dual capability — hands-on technical field service and federal contract sourcing under a single, responsive small business
- Owner-operated with a single point of contact from first quote through delivery

PAST PERFORMANCE

Borg Solutions is a newly registered SDVOSB actively pursuing its first federal contract award. We welcome the opportunity to quote on solicitations within our NAICS codes and to discuss teaming and subcontracting opportunities with established primes.
